

CHARLES GERARD R. ESCOSIO

Phone: 0955-140-0045 | Email: charlesescosio0@gmail.com | Location: Lipa City, Batangas, Philippines

CAREER OBJECTIVE

Detail-oriented IT graduate with strong analytical and problem-solving skills, seeking an entry-level Data Analyst role. Knowledgeable in databases, reporting, and data visualization concepts, with experience in academic projects involving system monitoring and data tracking. Eager to contribute to data-driven decision-making and organizational growth.

EDUCATION

Bachelor of Science in Information Technology – Major in Network Technology

Batangas State University, Malvar Campus (2021-2025)

EXPERIENCE

IT Intern | National University Lipa | 2025

- Assisted in maintaining 100+ laboratory systems, including cable management, password updates, and printer supply replacement.
- Supported data documentation and record management, ensuring accurate entry and organization of student IDs.
- Logged and tracked IT equipment loans, maintaining asset records and availability for professors and students.
- Provided front-desk technical support to staff and peers for troubleshooting, equipment setup, and system assistance.

PROJECT

Chick-n-Bator (Capstone Project)

- Built an IoT-based smart incubator with real-time monitoring and data logging of temperature and humidity.
- Integrated data into a database for storage, retrieval, and reporting.
- Applied Python and C++ for automation and sensor data collection.

Clothing Brand Website with Database (Academic Project)

- Built a web-based platform with database integration (MySQL / PHP) to manage product inventory and transactions.
- Designed interfaces for data entry, retrieval, and updates of stock levels, order history, and sales.
- Implemented features for searching, filtering, and managing records.

TECHNICAL SKILLS

- Databases: SQL, MySQL, Excel
- Programming Languages: Python, C++, Java
- Web Development: HTML, CSS, PHP
- Networking Tools: Cisco Packet Tracer
- IT Support: Troubleshooting, System Support, Database Integration
